### Custom and Modified Molds

There are times when you need a special jig no-one else has. This is where custom made or modified molds come into play. I can modify my molds if there is something special that you are looking for. For any mold modification to be done, there is a minimum order of 100 jigs per modified mold. I can also pour any custom molds you have made by an outside mold manufacturer. Please e-mail me with your questions regarding this matter, availability and pricing.....Thank You.

Pre-rig your worms before you start fishing and you will be able to fish your worms longer without fishing ripping or pulling them off of your hook. Slide these sleeves over your Wacky worm, center sleeve on center of worm, and then pierce your hook through the sleeve, through the worm and then through other side of sleeve. See picture below.

Available sizes:

- 1/4" diameter x 3/8" long fits Trick worms. \$1.00/10
- 3/8" diameter x 3/8" long fits Trick worms. \$1.50/10

## Powder Painting Re-Usable Pull Pins

(can also be used as weedguard pull pins in lead pouring molds)

Powder paint pull pins are used for powder painting your jigs without the weedguard in place.

### Instructions:

1. Push pull pin into the raw jig's weedguard hole as far as it will go.
2. Take jig and heat over heat gun until you get the jig hot enough to accept the paint.
3. As soon as you pull the jig out of the paint, **immediately** pull out the pull pin with a pair of pliers.

**Pull pins are extremely hot do not grab with fingers.**

### To clean pull pins:

Take **cool** pull pins and bend them slightly back and forth. The paint will crack off of the pull pins and you can then lightly scrape the rest of paint residue off with a dull knife if any paint exists. They are now ready for use next time.

All pull pins are  
1/8" diameter x 1.000" long  
and are  
30¢ each, plus shipping/ins.

**Do Not Use Pull Pins over any open flame. They will melt.**

♣ Weedguards are \$9.00/100. Colors available are, brown, green pumpkin, black and clear. If you would like us to glue in your weedguards, please add 30¢ **additional** for each jig you purchase.

## Quality

- ♣ All raw jigs are poured for your order only. They are not poured and left on a shelf to oxidize. Reason being, raw oxidized lead does not grip paint well when you try to paint the jig with powder paint.
- ♣ All jigs are powder painted with some of the best paints around, and then the paint is baked on for hardness.
- ♣ All the components in this catalog are made from the best matched and cast molds available. Molds are made by:  
Do-It Molds Corp. Denver, Iowa. USA.,  
Hilts Molds  
Or a custom made machined mold.

***Please note: All jigs, weights, and***
